Objectives and Investment Policy

The objective of the Fund is to achieve capital appreciation by investing primarily directly or indirectly in a diversified portfolio consisting of non-traditional investment funds known as hedge funds (the 'Target Funds'). These funds primarily focus on capital preservation and high absolute returns as well as low volatility of returns. These funds may be established in any jurisdiction globally and, without limiting the generality of the foregoing, the AIFM expects a majority of such Target Funds to be located in the United States, Caribbean, Channel Islands and EEA.

Distributions, if any, may be made at the absolute discretion of the board of directors of the Fund, payable in cash; by the distillation of specific assets; or by the issuance of additional shares in the Fund (the 'Shares'). Redemptions may be made on the first business day of each calendar quarter with not less than 95 calendar days' written notice.

For complete investment objective and policy information, please refer to the Fund's issuing document, including in particular the special section thereto pertaining to the Fund (hereinafter referred to as the 'Issuing Document').

Risk and reward profile

This risk and reward indicator is based on simulated past performance data of the Fund and may not be a reliable indication of the Fund's future risk profile. This risk indicator is subject to change and cannot be guaranteed. Even a fund that is classified in the lowest category 1 does not represent a completely risk-free investment.

The Fund is classified in category 3, since the share price has a comparatively little volatility and therefore the risk of loss as well as the expected reward is relatively low.

The following material risks are not fully captured by the risk and reward indicator:

- **Liquidity risks:** It is important for the shareholder of the Fund (the 'Shareholders') to be aware that the shares do not trade on a liquid and regulated market and that a redemption of the Shares is only possible every quarter with a 95 days prior notice period with monthly redemptions only available in exceptional circumstances and at the discretion of the board of directors of the Fund.
- **Operational risks and custody risks:** The Fund may become subject to fraud or other criminal activity. Losses may also be incurred through misunderstandings or errors on the part of employees of the AIFM, a custodian or an external third party. External events such as fires, natural disasters or similar may have a negative impact on the management or custody of Fund assets.

A more detailed description of risks and other general information can be found under "General Risk Factors" in the Issuing Document.
